

ENT Accessories Features and Benefits

STUB DOWNS

 Features	Vertical Stub Downs Part Numbers: A210D, A210E, A210F <i>(Patent Pending)</i> Benefits
<ul style="list-style-type: none"> • Nonmetallic, Noncorrosive, Nonconductive 	<ul style="list-style-type: none"> • Extends product life, eliminates rust & the need for replacement, & provides safe handling/installation. • Lightweight
<ul style="list-style-type: none"> • Concrete Tight 	<ul style="list-style-type: none"> • Able to withstand the harsh environments of concrete construction. • Designed specifically for poured concrete slab applications. No need to tape.
<ul style="list-style-type: none"> • Flexible 	<ul style="list-style-type: none"> • Easy transition from slab-to-slab. • Underside of fitting has ample room to attach a Carlon coupling to the ENT to continue the run. • Designed to remove or leave in after deck is removed. • Reduces costly transition work arounds.
<ul style="list-style-type: none"> • Carlon "Quick Connect" Snap-In Design 	<ul style="list-style-type: none"> • Provides a secure, fast, easy installation. • Prevents ENT from slipping and the ability to remove the fitting once the decking is gone. • NO TAPING REQUIRED. • Saves time and money. • Patented snap fingers provide retention of conduit while allowing easy removal if desired.
<ul style="list-style-type: none"> • Re-usable 	<ul style="list-style-type: none"> • Saves money.
<ul style="list-style-type: none"> • Easy Installation 	<ul style="list-style-type: none"> • No drilling required – Nail to decking
<ul style="list-style-type: none"> • Eliminates off-site Modifications 	<ul style="list-style-type: none"> • Saves time and money.
<ul style="list-style-type: none"> • Made from a highly engineered thermoplastic material 	<ul style="list-style-type: none"> • Rugged and Durable. • Will not crush/collapse under the tremendous weight of concrete installations.
<ul style="list-style-type: none"> • Variety of Sizes 	<ul style="list-style-type: none"> • Available in sizes 1/2", 3/4" and 1" to accommodate any jobsite requirement.

 Features	Vertical Stub Down Transition Adapters Part Numbers: A200D, A200E, A200F Benefits	
<ul style="list-style-type: none"> • Nonmetallic, Noncorrosive, Nonconductive 	<ul style="list-style-type: none"> • Extends product life, eliminates rust & the need for replacement, & provides safe handling/installation. • Lightweight 	
<ul style="list-style-type: none"> • Concrete Tight 	<ul style="list-style-type: none"> • Able to withstand the harsh environments of concrete construction. • Designed specifically for poured concrete slab applications. No need to tape. 	
<ul style="list-style-type: none"> • Flexible 	<ul style="list-style-type: none"> • Transition from ENT to another wire management system using a transition adapter fitting. • Increases design flexibility. • Reduces costly transition work arounds. 	
<ul style="list-style-type: none"> • Carlon "Quick Connect" Snap-In Design 	<ul style="list-style-type: none"> • Provides a secure, fast, easy installation. • NO TAPING REQUIRED. • Saves time and money. 	
<ul style="list-style-type: none"> • Threaded Port 	<ul style="list-style-type: none"> • Allows connection to another conduit system using a terminal adapter. 	
<ul style="list-style-type: none"> • Easy Installation 	<ul style="list-style-type: none"> • No drilling required – Nail to decking 	
<ul style="list-style-type: none"> • Eliminates off-site Modifications 	<ul style="list-style-type: none"> • Saves time and money. • Provides unlimited transition options. 	
<ul style="list-style-type: none"> • Manufactured from Polycarbonate Material 	<ul style="list-style-type: none"> • Designed to out perform today's competitive ENT products by providing better structural integrity & a higher resistance to the environmental extremes of concrete construction. • Rugged and Durable. • Will not crush/collapse under the tremendous weight of concrete installations. 	
<ul style="list-style-type: none"> • Variety of Sizes 	<ul style="list-style-type: none"> • Available in sizes 1/2", 3/4" and 1" to accommodate any jobsite requirement.
